

WINE LIST

We're very fond of a glass or two of wine here and we've put together a list of firm favourites which we update regularly. We like every bottle on the list and we hope you'll find the right grape at the right price from the right place!

Diverse & stimulating

We've mixed classic regions and grapes with interesting, less-celebrated, but always lovely wines. With a wide range available by the glass, we hope you'll be tempted to try something different.

Value & Style

We have really concentrated on the mid priced wines where we think there is some great value. So, no monster California Cabernets or First Growth clarets make our list, but there's much balance, elegance, complexity, intrigue and, of course, inspiration to be found. All our wines have character, be it purity, freshness, fruit or power. You'll quickly find the style you like, but that doesn't mean you've got to stick with it. Keep an open mind!

People and Provenance

We like to buy from artisan producers, a world away from the big-branded industrial wineries. Some are organic (O), and most are now focused in minimising carbon output and protecting vineyards for future generations, many are also certified vegan (VG). But above everything, we look for individuality and quality.

Feel Free to Ask

We don't have sommeliers, but we do have a team of great serving staff who are encouraged to try all our wines. So, if you're not sure what to order, go ahead and ask. And do tell them what you think of the wines!
